Advertisement for Appointment of Junior Research Fellow (JRF)

Project Title: Development of Coating Material for Fertilizer (Granule Single Super Phosphate) to Minimize Dusting Problem During Handling and Transportation of Fertilizer

Introduction

The control of dust during the handling of fertilizers is an increasingly critical need in today's agricultural practices. Dust emissions not only pose health risks but also lead to significant losses in product efficiency. Developing effective coating materials to minimize dusting is essential for improving the overall handling and transportation processes of fertilizers.

Project Details

- **Principal Investigator:** Dr. Vijaykumar R. Ram, Associate Professor, Department of Chemistry, KSKV Kachchh University, Bhuj
- **Time Period:** 1 year
- **Position Available:** Junior Research Fellow (JRF)
- **Number of Positions:** 1
- **Eligibility:** M.Sc. in Chemistry
- **Appointment Process:** Conducted by the Principal Investigator, Dr. Vijaykumar R. Ram.
- **Stipend:** ₹25,000/month for 1 year

Collaboration

This project is part of an agreement between the Department of Chemistry, KSKV Kachchh University, and Transworld Furtichem Ltd, Kandla.

Application Process

Interested candidates are invited to submit their applications along with a detailed CV to Dr. Vijaykumar R. Ram at vijayr@kskvku.ac.in. Please include a cover letter stating your interest and relevant experience.

Deadline for Applications: 15.10.2025

Join us in this innovative project aimed at enhancing agricultural practices and promoting environmental safety!

Dr. Vijaykumar R. Ram
